Spa Dog Botanicals provides your customers with a healthy, responsible way to give their beloved pet a "fresh from the spa" feeling – everyday!

With a complete line of invigorating shampoos, radiant conditioners, coat-revitalizing sprays, and "sweet smelling" ear and breath drops, Spa Dog Botanicals offers consumers a healthy and natural way for their dogs to look and feel their very best.

Natural, Holistic, and Safe

The key feature behind these exceptional products is they do their job naturally, using essential oils extracted from nature's finest herbs, plants, flowers, and fruit. **This makes them a necessary product that responsible, loving pet owners will seek out and purchase - again and again.**

With such ingredients as Eucalyptus, Aloe, and Balsam Peru (amongst others), our shampoos and conditioners not only give dogs a bubbly, energizing bath, they can also naturally repel pests.

Our "use anytime" sprays feature Lavender, Rosemary, Orange, and other natural ingredients. They refresh dog's coats, keep them smelling great, and also repel pests (like fleas.)

Our ear care and breath drops not only smell sweet, but they assist in the health of these vital areas.

With products specifically designed for puppies, larger dogs, active dogs, and more, Spa Dog Botanicals ensures that you provide something for your *entire* dog-owning clientele.

**Attractively Packaged
High Demand and Repeat Sales
Affordably Priced
Combo Spa Kits and Gift Pails**
